

## Good Practices

Please provide details of at least one present or future flagship project that demonstrates your commitment to an integrated approach to the management of the urban environment. This must relate to Indicator 12: Governance (to be completed under heading: Good Practice 1 - Integrated Management Approach).

Please summarise up to five additional good practices, relating to any indicator(s) that demonstrate how your city is improving its environmental record. Please identify to which indicator(s) your good practice is relevant. To be completed under heading(s) Good Practice 2 to Good Practice 6 below.

Good practices should be taken from information already provided within the application form.

Each good practice should be supported by a maximum of three graphics, images or tables (max. 300 words per good practice).

### Good Practice 1 - Integrated Management Approach

(max. 300 words and three graphics, images or tables)

Indicator: 12: Governance

#### Involvement of young people

The environmental education started in Pécs with the green school program in 2002. This involved school education provided on sustainability, organizing guided tours to the Material Recycling Facility of Pécs, supporting selective waste collection in schools, organizing creative competitions on sustainability issues, installing playhouses for children on environment protection as integral part of the city events, organizing the meetings and education of local teachers. Since the beginning, several ten thousands of people have attended the educational programs and events, or visited the material recovery facility to understand and promote the selective waste collection.

## Application Form for the European Green Capital Award 2022

From 2011 onward the Eco-City Eco-Region Foundation has developed the „Step forward! Be the future of Pécs” Program. This educational program involves thematic lessons from the nurseries to the university.

The city also organises a contest for Green Schools and Nurseries every year. The supported school activities are listed below:

- Assets of open air education (outdoor observation and demonstration assets, gardening, bird feeder, nature trail)
- Environment conscious outdoor and indoor school infrastructure (collection of rainwater, green shading, green waste collection, selective collection bins, exchanging the water taps, installing drinking fountain)
- Bringing nature into the school building (installing green plants on the corridors and in the classrooms, setting up aquariums or terrariums)
- Promoting sustainability within school (green information material, sustainable decorations and information signs helping sustainable usage of resources).
- Furnishing a classroom designated for sustainability education.
- Purchasing demonstration assets connected to sustainability
- Enlarging the school library with books, newspapers focused on environmental sustainability
- Organizing students action groups for sustainability
- Supporting the site visits of the education program

### Good Practice 2

(max. 300 words and three graphics, images or tables)

Indicator: *[INSERT NAME OF RELEVANT INDICATOR(S) HERE]*

*[INSERT RESPONSE HERE]*

### Good Practice 3

(max. 300 words and three graphics, images or tables)

Indicator: *[INSERT NAME OF RELEVANT INDICATOR(S) HERE]*

*[INSERT RESPONSE HERE]*

### Good Practice 4

(max. 300 words and three graphics, images or tables)

Indicator: *[INSERT NAME OF RELEVANT INDICATOR(S) HERE]*

[INSERT RESPONSE HERE]

## Good Practice 5

(max. 300 words and three graphics, images or tables)

Indicator: [INSERT NAME OF RELEVANT INDICATOR(S) HERE]

[INSERT RESPONSE HERE]

## Good Practice 6

(max. 300 words and three graphics, images or tables)

Indicator: [INSERT NAME OF RELEVANT INDICATOR(S) HERE]
